Assignment Title : DEVELOPMENT OF MONITORING SYSTEM AND CORRECTION SERVICES FOR LAND SATELLITE REFERENCE NETWORK (JRSP)

Reference No. ID-ATR-BPN-545099-CS-CQS

The Government of the Republic of Indonesia has received financing from the World Bank toward the cost of the Integrated Land Administration and Spatial Planning Project (ILASPP) and intends to apply part of the proceeds for the Development Of Monitoring System and Correction Services for Land Satellite Reference Network (JRSP) Year 2026.

The purpose of this activity is to develop and enhance the existing GNSS-RTK JRSP monitoring system and correction services into a more reliable and informative platform capable of serving broader user needs. The JRSP stations are expected to replace the non-functional TDT infrastructure. These stations are installed at Land Offices throughout Indonesia and are used as control points for land registration service measurements and in providing basic land and spatial model infrastructure. This system aims to conduct trial monitoring and ensure the completeness of various features that support future JRSP operations. The system will remotely monitor JRSP stations to determine which are online and offline. Through this monitoring system, technical problems can be detected early and addressed promptly

The assignment will be carried out for **3,25 months**. The detailed Terms of Reference (TOR) for the assignment can be found at the following:
